

Cal Net Technology Group Case Study

Cal Net Technology Group provides consulting for top college preparatory school in Los Angeles

Customer Name: Harvard-Westlake School

Industry: Education

Project Location: Los Angeles, California

Web site: <http://www.hw.com>

"Cal Net has been able to bring subject matter experts to us. This has allowed projects to be completed rapidly while insuring a high quality outcome. We couldn't have completed the same number of tasks with a single additional full-time tech added to our staff. They also document and manage their resources very well. We are very happy with what Cal Net has done for us."

- David Hartmann, Network Manager,
Harvard-Westlake School

Challenge

Harvard-Westlake School (HWS) is one of the top college preparatory schools in Los Angeles County. Its student profile includes 1,597 students enrolled in grades 7-12 with a student to faculty ratio of 8:1.

With such a large student body and faculty, HWS needed a firewall solution to protect its' data and students' information.

Solution

With this challenge in mind, HWS approached Cal Net Technology Group seeking assistance with implementing a high-end firewall solution. After working together and gaining a better understanding of Cal Net's skill sets, HWS hired Cal Net for a list of 70 projects of high level interest.

In order to cater to HWS's specific needs, Cal Net developed a detailed Scope of Work and a strategy to implement it that would be both time and cost efficient.

Results

Through Cal Net, HWS has found a service that provides an extremely high level of regularly scheduled technical skill along with rotating specialists that help implement technology faster and better than any one single engineer can.

Cal Net is also able to ramp up their services during HWS's peak times and reduce costs by lowering services during their slow times.

About Harvard-Westlake School

Harvard-Westlake School is an independent coeducational college preparatory day school including grades 7-12. It is the result of a merger between Harvard School, founded in 1900, and Westlake School for Girls, established in 1904. Coeducation began in September of 1991. It ranks among the top high schools in the country in number of National Merit Semifinalists. In the class of 2009, there are 116 students who received National Merit Recognition, with 35 students as National Merit Semifinalists.

About Cal Net Technology Group

Founded in 1995, Cal Net Technology Group provides small-to-midsized organizations in Southern California with technology consulting and IT services. When clients choose Cal Net Technology Group, they don't simply hire a single IT professional; they gain an insourced IT department. Better than a stand-alone in-house IT department, Cal Net Technology Group deploys ongoing IT services and technology projects to help companies communicate effectively and protect their critical data while saving time and money. Its signature services, TECManage and CoManage, give clients cost-effective options to manage all or part of their IT functions, with specialized resources at their disposal, getting IT projects done quickly and efficiently.
